Skills

- Java | JavaScript | TypeScript | Kotlin | Python | MySQL | Node | Express | React | Angular | Bootstrap | jQuery | NoSQL | Git | Spring Boot
- Aws | Cloud Computing | CI/CD | SQL | TDD | Unit Testing | Lambda | OOP | Android Development | Web Development | Flutter
- Microservices | Distributed Systems | Frontend | Backend | Full-Stack
- English, Swahili, Arabic – All professional proficiency or above

Experience

Quality Analyst Cambium Assessment, Inc Columbus, OH, USA 05/2023 - Current

- Conduct rigorous quality assurance checks on systems data integration for all paper reports across multiple clients.
- Analyze assessment result samples against the reporting specifications to ensure that the configuration has been done, as per the rules documented in the specification document.
- Review assessment results are accurate and do not contain any errors.
- Document quality assurance results by entering information into **Jira**, recording detailed issues found.
- Communicate with management and other team members when issues are discovered, and offer possible solutions to help correct any possible errors in the reports.
- Assess quality assurance strategies periodically to determine best practices and improvements that could be more efficient and could lead to fewer issues with reporting.
- Create a User Acceptance Testing document that defines the various test cases that the client can use to conduct testing on the site.

Software Engineer Nomadic Spectrum Columbus, OH, USA 11/2021 - 12/2022

- Implemented enterprise applications for nomadic spectrum's websites using **Javascript, React, Bootstrap** and other technologies.
- Performed code merges through source control tools of new features into the main release code line.
- Debugged errors, troubleshooting issues and routinely perform performance optimizations on clients websites.
- Designed and developed RESTFUL style web services to manipulate dynamic data using AJAX calls.
- Identify ideas to improve system performance and impact availability.
- Designed and implemented scalable APIs for managing first- and third-party proprietary licenses using **Spring Boot, Java, Aws S3**, and other **Aws cloud technologies**.

Freelance Web Developer Freelancer Hyderabad, TL, INDIA 10/2020 - 11/2021

- Designed and implemented client design mockups and wireframes into a responsive, interactive and accessible website that meets the client's expectation.
- Performed regular maintenance and updates to the web page content for clients.
- Led the preparations for multiple design and wireframe for clients approval before proceeding with development and production.
- Determine clients needs by analyzing requirements such as **responsive design, SSL certificates, redirects, sitemaps, browser capabilities, hosting services and web page load times**.

Education

Bachelor of Computer Application Osmania University Hyderabad, TL, INDIA 08/2018- 7/2021

- Major in **Software Engineering** - GPA 3.85
